

NEW FOR THE AFTERMARKET

ModulT carriers

- ✓ Now available individually for aftermarket service
- ✓ Nine variants available. Dedicated carrier for each ModulT application
- ✓ Ideal for fast, straightforward maintenance
- ✓ Reliable supply through the Haldex aftermarket range

Completing the aftermarket spare parts range

These carriers are existing ModulT components that are now available as individual spare parts for the aftermarket. Their introduction completes the ModulT disc brake spare parts range and makes it possible to replace the carrier during service when required. The nine available variants ensure the correct carrier for each ModulT application. With reliable availability through the Haldex aftermarket network, maintenance remains straightforward and vehicles can be kept in service efficiently.

ModuLT

ModuLT carriers are available in several variants, each designed for a specific application. The table below provides an overview of the currently available aftermarket references to support correct identification and ordering.

ModuLT carriers reference overview

Application	Carrier AM Part No.	Carrier OES Part No.	Disc brake OES Part No.	Disc brake unit (L) AM Part No.	Rationalized caliper (L) AM Part No.	Disc brake unit (R) AM Part No.	Rationalized caliper (R) AM Part No.

Beyond trailer applications

ModuLT carriers are also part of Haldex Truck braking systems, including VOLVO and RVI Medium duty program.

Product references will be communicated at a later stage.
