

REFRESH-KIT BI10

SAF  New kit with NFC hubcap!

BENEFITS FOR YOU

- Significantly increase durability due to the installation of original parts
- Reduced repair times owing to pre-assembled components
- Reduced down times
- Price advantage compared to single parts purchase

03 434 3136 01 (for one axle)		03 434 3137 01 (for one axle)	
Brake 19,5"	Ø Brake disc (mm)	Brake 22,5"	Ø Brake disc (mm)
SAF SBS1918*	377 mm	SAF SBS2220*	430 mm
Knorr SN6/ST6*	377 mm	Knorr SN7/SK7/ST7*	430 mm
Wabco PAN 19*	377 mm	Wabco PAN 22*	430 mm
Compatible with steel and aluminium wheel rims with off set ET120 BI10-19K, BI10-19S, BI10-22S, BI10-22S01			
*Compatible brake pad kits have to be ordered separately			

The above mentioned retrofit kits contain SAF hubcaps including NFC chip, which is not yet registered to the respective axle when delivered. Therefore, the NFC chip must be tuned in to the axle. This is done very simply in just a few steps: [NFC-Instructions](#)
