

SBS2220K0 Brake pad - Quality

Product optimization of SBS2220K0 brake pad quality

SAF-HOLLAND stands for quality and progress.

As part of the continuous development and optimization of the product portfolio, SAF-HOLLAND Aftermarket will further adapt the proven friction material quality of its disc brake pad sets. The new assignment of the covering qualities to the article numbers is structured as follows:

Part number	Quality	Categorie
03 057 0006 00	SAF 577	Premium Aftermarket
03 057 0006 01	SAF 567	Standard Aftermarket
03 057 0006 02	SAF 597	OE

Information:

- High friction coefficient stability with regard to temperature and speed over the entire service life
- Balanced wear behavior
- Current ECE R90 Homologation available
- Available from **June 22, 2026**
