

SAF HERCULES 2.0

Safe and efficient operation during coupling and uncoupling

SAF HERCULES 2.0

Tried, tested and appreciated worldwide, and now even better

High quality, cost-effectiveness and reliability combined with a very long service life – the reasons why landing gear from SAF-HOLLAND has an excellent international reputation.

Our landing gear is ideal for very different scenarios, from the icy cold of Scandinavia to the shimmering desert heat of the Middle East. Ease of use and fantastic functional reliability mean that little force is required, taking some of the strain of daily coupling and uncoupling.

SAF HERCULES Compact

SAF HERCULES Swivel Landing Gear

SAF HERCULES Drop Leg

ROBUST.
DURABLE.
RELIABLE.

Tests

- Climate change test to ensure reliable functionality under extreme weather and temperature conditions in accordance with VDA 621-415
- Salt spray test to confirm high corrosion resistance in accordance with DIN EN ISO 9227
- Functional and endurance tests conducted in accordance with the specified specifications to ensure consistently reliable performance in everyday use

NEW FEATURES

New 3-Layer Corrosion Protection

Thanks to blasting, phosphating, KTL coating and powder coating, our support jacks offer long-lasting protection against corrosion, stone chips and the elements. The multi-stage coating system ensures maximum service life and a consistently high-quality finish on the support legs, crank and connecting shaft.

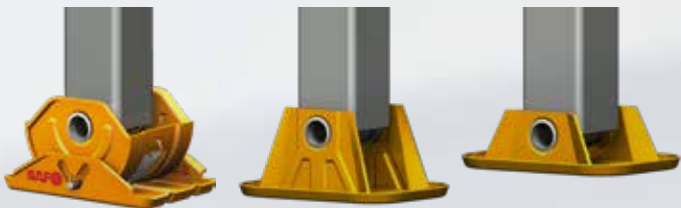

New SAF gearbox

- Longer service life through material modifications in various components
- Improved and smoother running performance
- Improved operational safety
- Increased wear resistance

Optimized foot design

- Improved lateral stability
- Longer compensation path
- Optimized rolling performance

Your Benefits

- ✓ Triple-layer surface coating for even better corrosion protection
- ✓ Web-based spare part identification via QR code on the support legs
- ✓ Continuous 10-hole 3D backplate guarantees a variety of mounting options and facilitates the replacement of landing gear already in service

All the product improvements shown apply to the entire product range.

The SAF-HOLLAND Group is one of the leading international manufacturers of suspension-related assemblies and components for trailers, trucks and buses. Our innovative products increase the efficiency, safety and environmental friendliness of commercial vehicles, contribute to the success of our customers. With around 5,500 employees worldwide, we are at the forefront of shaping the future of the transportation industry.
