

NEWAY® Power Vehicle Suspensions

Product Change Notification for the NEWAY ADZ Powered Vehicle Suspensions

Effective August 2022

The NEWAY ADZ suspension model with a 12" ride height will be updated from a fabricated steel frame bracket to a new cast frame bracket. The new cast bracket will maintain the same fit and function while providing the additional benefits listed below:

- Weight reduction of 8.6 lb. per axle
- Common frame bracket and pivot connection components for both roadside and curbside
 - Simplifies assembly
 - Enables increased thrust angle adjustment (axle alignment)

PART NUMBER CROSS REFERENCE

Fabricated Part Number/ Description	Cast Part Number
90522353/Adjustable	90018771
90522355/Fixed	90018771
90618346 Adjustable with spacers	90018771*
90618348 Fixed with spacers	90018771*

* Need 90035120 spacers (2 per bracket)
